Corigen[®] Medication Safety Program

Discover if the medications you take now – or could take in the future – are right for you.

How it works:

1. Eligible covered individuals complete the online enrollment form to have a DNA test kit shipped to their home.
2. Simply follow the instructions in the kit for taking a saliva sample and return the kit via the US Postal Service with the prepaid return shipping label.
3. Pharmacists from Coriell[®] Life Sciences' network will analyze your results to see how your DNA, combined with other factors, affects the medication(s) you take.
4. Once complete, you will receive a notification to schedule a phone call with a Coriell Life Sciences Program pharmacist who will receive your results and may make recommendations to you and your physician.
