in-person sessions

What is Aspire365?

A **12-month in-home care model** for people **ages 12+** dealing with mental health issues, substance use problems, or both (co-occurring disorders)

You may be responsible for monthly co-pay and/or deductible for continued care.

Mental Health Program

Personalized, in-home mental health program that adapts to each client's level of need—from **moderate to more intensive care.**

Substance Use Program

An adaptive substance use treatment program that meets each client's level of need—building skills, confidence, and stability for lifelong recovery.
